**Soft Skills:** Time Management, Teamwork, Communication, Problem Solving, Leadership, Accountability

## PROFILE SUMMARY

Proficient in React, Redux hooks, Styled Components, React Router DOM, and third-party libraries for enhanced user interface and features such as charts and payment gateways. Experienced in MongoDB schema design and developing RESTful APIs for efficient data interaction. Skilled in cross-team collaboration for seamless project execution.

## EXPERIENCE

**Software Engineer at Laminaar Aviation Infotech**  
till now-2022.11

- ◊ Led the development of a Gantt chart application, optimizing timelines, dependencies, and resource allocation for efficient project tracking.
- ◊ Created responsive forms with API integrations, enhancing application functionality and user experience.
- ◊ Skilled in Agile methodologies, delivering high-quality solutions through iterative development.
- ◊ Experienced in SignalR and Microfrontend architecture for real-time communication and scalable, modular designs.

**Web Developer at Vision Infotech**  
2022.11-2019.12

- ◊ Developed custom libraries to enhance code re-usability and streamline development workflows.
- ◊ Integrated Stripe, PayPal, and Whats App for secure transactions and improved customer engagement.
- ◊ Built a responsive quiz application with optimized user interfaces for seamless multi-device usage.
- ◊ Designed a dynamic form builder application, enabling customization and user-friendly form creation.
- ◊ Improved user experience by implementing responsive and accessible design principles across web applications.

## EDUCATION

BACHELOR OF ENGINEERING IN ELECTRONICS AND COMMUNICATION ENGINEERING from Gujarat Technological University. 2021-2017

## CERTIFICATIONS

◊ MERN STACK DEVELOPER	2022.02
◊ AZURE DEVOPS TRAINING	2023.06
◊ SCRUM MASTER TRAINING	2023.08
